Cilacap, Jawa Tengah, Indonesia

Fresh graduate with over 2 years of hands-on experience in freelance and internship roles, specializing in designing and developing user-friendly and responsive web applications. Proficient in both front-end and back-end technologies. Successfully completed various projects by optimizing functionality, performance, and user experience. Ready to expand knowledge and skills in a dynamic and challenging environment while making significant contributions to organizational goals.

WORK EXPERIENCES

Draftcoding Id - Bogor, Indonesia <i>Freelance - Fullstack web developer</i> SPARK (Laravel, Livewire & Postgresql) Developed 'SPARK', a web-based event management solution facilitating digital exhibition ticket sales. The system also includes a fully integrated online store module for managing and selling event merchandise. TOYOTA QCC Development System (Next.js, React js & PostgreSQL) Developed a web-based Quality Control Circle (QCC) system for TOYOTA MANUFACTURING, a platform to digitally manage and track quality improvement proposals from project teams. This system replaced time-consuming manual processes. Kampung-Aman (Laravel & Livewire) Built 'Kampung-Aman', an integrated community security platform featuring incident reporting capabilities (such as crimes, theft, and domestic violence), a panic button, legal education, and social awareness. Musiksaia (Laravel, Inertia.js & React js) Designed and launched 'Musiksaia', a music platform dedicated to independent musicians, enabling them to upload works, manage profiles, and track royalties independently.	Jun 2024 – Present
CV Astoetik - Yogyakarta, Indonesia <i>Magang - Fullstack web developer</i> - Led a developer team of 3 in designing and developing an inventory system, successfully completing the project within the target timeline. - Built an inventory and sales system website for CV Astoetik under the 2024 Matching Fund program – Kedaireka. The stack used in this system was Laravel and PostgreSQL database. - Successfully resolved stock discrepancy issues by redesigning the inventory system logic, resulting in a 98% increase in stock data accuracy and reducing potential losses due to recording errors. - Implemented an automated sales report feature that shortened data recapitulation time and improved the operational efficiency of the sales team.	Aug 2024 – Sep 2024
Politeknik Negeri Cilacap - Cilacap, Indonesia <i>Mentor dan Web Developer di Teaching Factory</i> Teaching Factory is part of the Computer and Business Department of Cilacap State Polytechnic, bringing project-based learning with an industrial atmosphere and opening spaces for external parties wishing to collaborate. - Successfully developed and launched a company profile website for the Archives and Library Office (Dinas Arpus) of Cilacap Regency using WordPress. - Completed backend API development for the E-Patrol application of POLRES Cilacap using Laravel, supporting patrol operations to be more effective and data-driven. - Collaborated in a team to build SBI Legal Permit for PT. Semen Bangun Indonesia using Next.js, which successfully minimized the risk of licensing delays. - Mentored lower-level students, helping provide insights into new technologies and ensuring the quality of Teaching Factory projects.	Feb 2023 – Jul 2024
Lecturer Dedication at Banjarwaru Village - Indonesia <i>Web Developer</i> - Enhanced local product promotion by creating the Banjarwaru Village Craft Catalog website, opening broader market access for village artisans. - Created a website for Banjarwaru Village, Cilacap Regency. A village that upholds local wisdom and still preserves many traditional cultural activities to this day - Successfully organized website operational training attended by all village officials, ensuring the sustainability of independent website management.	Aug 2023 - Dec 2023 & Aug 2025 – Sep 2025
PT Rekan Bisnis Anda - Indonesia <i>Fullstack Web Developer</i> - Added new features to the Responic website (WhatsApp gateway) such as multi-language support, contact labeling, contact import, contact and label cloning, form statistics, broadcast cloning, integration with other applications like WordPress and orderonline.id, and other additional features. - Improved application stability by successfully identifying and fixing bugs, which resulted in increased customer satisfaction. - Achieved customer satisfaction in the role of Technical Customer Service, thanks to fast problem-solving skills and effective communication.	Dec 2022 - Dec 2023
Circlebubble - Indonesia <i>Fullstack Web Developer</i> BSI OTO (Laravel & Livewire) Built the BSI OTO website, a platform for buying and selling new and used vehicles from Mandiri Utama Finance. The stack used in this project was the Laravel Framework. - Redesigned the UI/UX of the BSI OTO website. The tool used was Figma.	Jan 2022 - Dec 2022

- **MANDIRI UTAMA FINANCE (MUF) Future (Laravel)**
Worked on the MUF Future website (future.muf.co.id), a recruitment website for Mandiri Utama Finance. The stack used in this project was the Laravel Framework.
- **INFINA (laravel)**
Built the Infina.id website, an influencer search and marketing platform. The stack used in this project was the Laravel Framework.

EDUCATION LEVEL
